Canyon Lake, TX – June 01, 2023 -The annual Texas Water Companies Consumer Confidence Report (CCR), also referred to as the Water Quality Report, is now available to review online at <https://www.txwaterco.com/water-quality-0/water-quality-reports>

Required by the Texas Commission on Environmental Quality (TCEQ), the annual CCR is made available to all customers served by the Texas Water Company and summarizes the testing performed throughout the year to ensure compliance with Federal and State regulations. In addition to complying with regulations, the Texas Water Company goes above and beyond to ensure that the water provided to customers is of the highest quality possible.

Some key takeaways from the report include:

- The types and quantities of minerals and contaminants in the water supply.
- The measures are taken to ensure compliance with regulations.
- The steps taken to improve water quality and protect the environment.

Texas Water Quality Specialist Kristen Collier states, “By reviewing the CCR, customers can feel confident that the Texas Water Company is dedicated to providing safe and clean water for their community.” The company’s mission, vision, and values demonstrate its commitment to serving its customers, employees, shareholders, and the environment at world-class levels.

About The Texas Water Company

SJWTX, dba The Texas Water Company, is a subsidiary of SJW Group, is a public water and wastewater utility providing service to approximately 75,000 people through over 26,000 connections in a service area comprising over 250 square miles in Comal, Blanco, Kendall, Bandera, Medina, Hays, and Travis counties.
